| <b>Bento Buddies</b> - Campus Dining Meetup Platform   <a href="#">DevPost</a>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | November 2025 - Present |
| <ul style="list-style-type: none"><li>• <b>Top 3 Finalist &amp; Best Accessible Design Award</b> at HackCamp 2025 (70+ teams); currently rebuilding as nativeiOS app in Swift/SwiftUI for App Store deployment</li><li>• Led a <b>team of 3 students</b>; managed project timeline and coordinated task distribution across frontend, backend, and design</li><li>• Built complete <b>Firebase authentication system</b> (sign-in, registration, password recovery) and <b>real-time messaging with Firestore</b></li><li>• Developed interactive campus map with <b>Google Maps/Places APIs</b> featuring 45+ dining locations with reviews and meetup scheduling</li><li>• Ensured <b>WCAG 2.1 AA</b> compliance using <b>AXE/WAVE evaluation tools</b>; validated responsive design across multiple viewports</li></ul> |                         |
| <b>Ripple</b> - Peer Support Wellness App   <a href="#">Source Code</a>   <a href="#">Figma Design</a>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | January 2026            |

- Recognized as **Top 3** for **Best Wellness Hack** by PCCA Sponsor at nwHacks 2026 (70 teams)
- Built a **cross-platform wellness app** addressing student loneliness and common mental health struggles through **anonymous peer support events**;
- Drove feature prioritization based on user research on student mental health and loneliness; integrated ElevenLabs API for AI-guided meditation

**Memory Lane** - Senior Therapy App | [Source Code](#) | [Figma Design](#)  
2026

February 2026 - April

- Building **cross-platform app** with 1 teammate to help **elderly users** preserve memories through daily voice recordings and photo uploads
- Integrated **Firestore**, **Auth**, and **Storage** for real-time sync; built **family linking system** via shareable codes
- Added **text-to-speech** accessibility feature; designed personalized daily prompts and **memory recall quizzes**

## LEADERSHIP/EXTRACURRICULAR

### Events Director

September 2025 - Present

#### *UBC Startups Club*

- Planned and executed **entrepreneurship and tech-focused events** (workshops, speaker panels, pitch nights) with attendance ranging from **50 to 100+ students**
- Oversaw **event feedback collection** and used insights to improve attendee experience
